

# Dustin IT as a Service

## Your IT outsourcing subscription package

All the Managed Services you need in one easy package with standardised services, enabling you to seamlessly outsource your entire IT infrastructure. We provide you with the right service at the right time: keeping things simple, clear, and cost-efficient. With us, your IT stays secure, reliable, and future-proof.

Manage, Support and Advise

Proactive Security Management

Workplace

Network

Cloud

Dustin ITaaS includes Modern Workplace, Network, Public or Private Cloud, and Proactive Security Management. We proactively manage, monitor, and support your IT and your end users.

But that's not all. As a Dustin IT as a Service customer, you enjoy exclusive benefits, like Single Point of Contact support, a dedicated Customer Success Manager, and strategic advice.

### Strategic Partnership

We help you align your IT strategy with your business goals. Combined with our Customer Success Managers and Single Point of Contact (SPOC) support, we provide proactive and efficient IT service.

### Security

Together with Europe's leading security expert, Truesec, we ensure your business' security and reliability with robust, proactive IT management featuring zero-trust security and 24/7 monitoring.

### Skyportal

Our real-time insights portal keeps you constantly informed about your IT status. Offering detailed data insights and self-service options - giving you a transparent full view of your entire IT landscape.

## Streamline your IT with Dustin IT as a Service
