

Microsoft 365 Backup

Protect your data in the Microsoft 365 Cloud

It's a common misconception that data in the Microsoft 365 cloud is always secure. While Microsoft 365 enhances productivity, efficiency, and collaboration, it doesn't fully cover data backup needs. With our M365 Backup service your data is protected across the entire Microsoft 365 suite.

With unlimited storage, we guarantee the preservation of your user data, enhancing your Microsoft 365 security. Our service simplifies backup, archiving, support, and recovery, giving you peace of mind. Our M365 Backup solution is licensed per user. Your shared resources are backed up for free.
