

How to guide Apple AirPlay 2 on Flip 2 (WMR Series)

Table of contents

1. How to set up

2. Appendix : What can you do with AirPlay on Flip?

1. How to set up

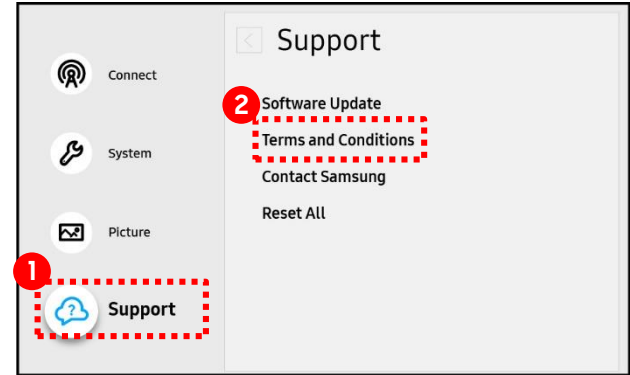

How to setup

1 Firmware update

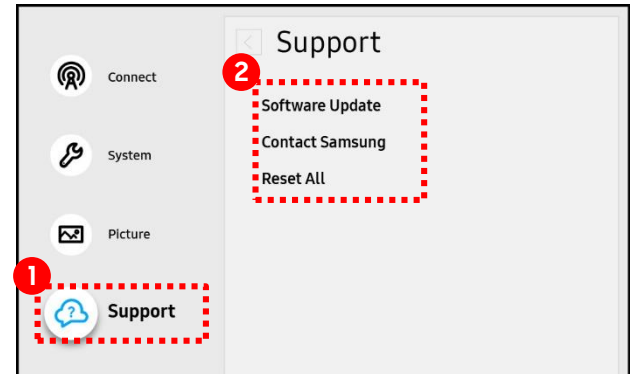

1. Check the **firmware version** of your Flip.

- 1) Touch the 'Support' menu on the Flip.
- 2) Check if 'Terms and Conditions' appears* in the menu.
 - a. Yes → an update is not required. ([Go to page 6](#))
 - b. No → a firmware update is required. ([Go to page 5](#))

* If your Flip is connected to an external network, the firmware will be automatically updated.

a. Firmware is updated.

b. Firmware update is required.

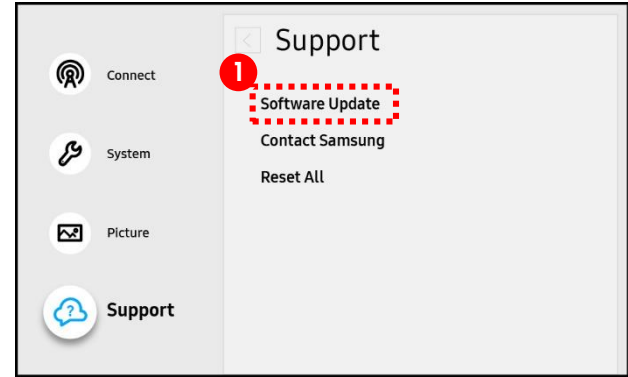

How to setup

1 Firmware update

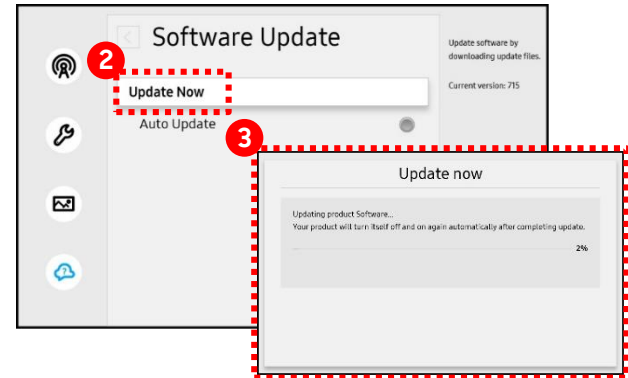

2. Update the firmware.

- 1) Touch the 'Software Update' option* in the 'Support' menu.
- 2) Touch the 'Update Now' option.
- 3) When the update process is complete, the device will automatically reboot.

* If an external network is not available, please insert a USB Flash Drive containing the new firmware to update.

a. Touch the 'Software Update' button.

b. Touch the 'Update Now button' and wait for the progress.

How to setup

2 Terms and Conditions agreement

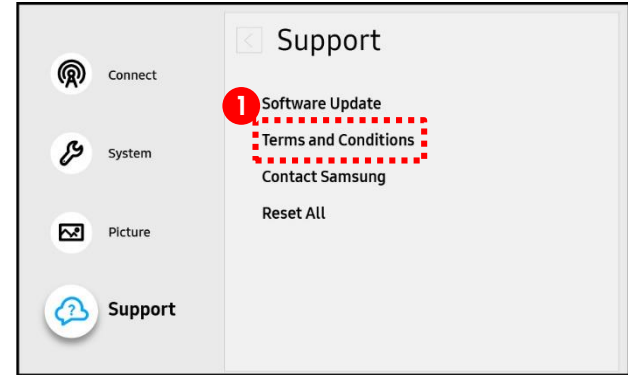

1. Agree to the Terms and Conditions.

- 1) Touch the 'Terms and Conditions' option in the 'Support' menu.
- 2) Review the Terms and Conditions* and then finalize the agreement by touching the check box**.

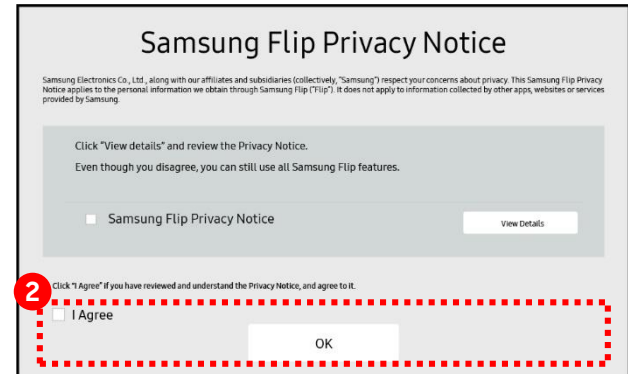

* To use AirPlay, you must agree to the Terms and Conditions and it may vary by country. The AirPlay function is NOT available in the following countries :

Aland Islands, China, Cuba, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Faroe Islands, Islamic Republic of Iran, Lesotho, Mauritania, Netherlands Antilles, Republic of South Sudan, San Marino, Sao Tome and Principe, Sierra Leone, Somalia, Sudan, Syrian Arab Republic, Timor-Leste, Togo, Tuvalu, Western Sahara, Yemen

** If the Terms and Conditions are not displayed, check if you are connected to an external network.

a. Touch the 'Terms and Conditions' menu.

b. Agree to the 'Terms and Conditions'.

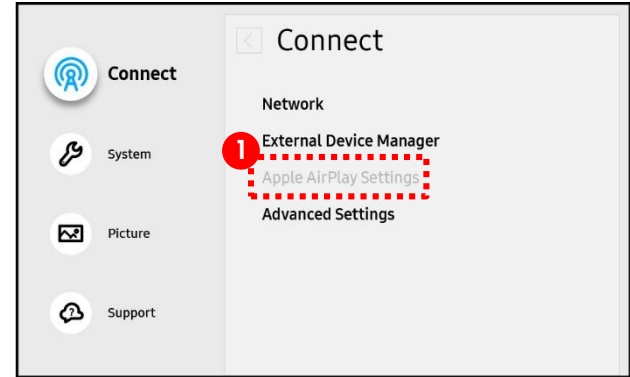

How to setup

2 Terms and Conditions agreement

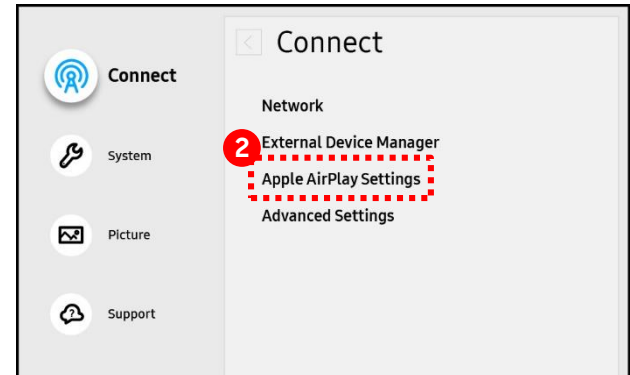

2. Activate AirPlay function.

- 1) After the agreement, 'Apple AirPlay Settings' option will appear in the 'Connect' menu.
- 2) After activating the AirPlay function, the device must be rebooted.
(When activated, the menu will change to black*)

* After the first activation, the app will be automatically downloaded from the server even if it is updated at a later date.

a. AirPlay is not activated yet.

b. AirPlay is activated.

How to setup

3 Device connection

1. Set the devices on the same external Wi-Fi network.

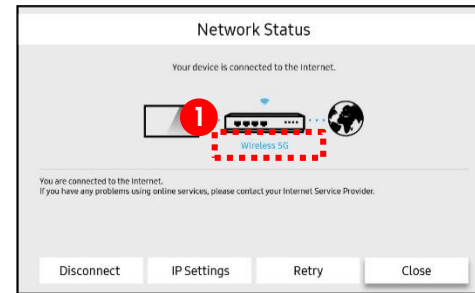

- 1) Check if the Flip is running on an external network.
- 2) Make sure that the Apple device you want to connect to is on the same external Wi-Fi network* with the Flip.

* To connect the devices and use AirPlay, the devices must be connected to the same external Wi-Fi network.

Flip

Apple Device
