

Smart-UPS Ultra up to 10kW

The future of uninterruptible power, right here, right now

SMALLEST, LIGHTEST, MOST POWERFUL WITH LITHIUM ION BATTERIES⁽¹⁾ IN A MINIMAL FOOTPRINT

Ideal protection for demanding IT professionals and solution providers

SUSTAINABLE

- Up to a 7% reduction in embodied CO₂
- 75% of aluminum from certified recycled sources
- 3x Longer Battery Life = less battery replacements
- 2.5x Power Density
- Energy Star certified (5kW only)

ADAPTABLE

- Deploy anywhere
- More power, more space for IT and other equipment
- Easy to configure

EFFICIENT

- Minimize downtime with 10-year UPS and battery life*
- Save time and money
- Ultra compact UPS

RESILIENT

- Integrate into EcoStruxure Micro DC and Row DC solutions
- 5-year warranty
- Replaceable batteries and parts for longer life

Smart-UPS Ultra 3kW and under

-  50% smaller and lighter
-  Flexible installation
-  3x battery life

Ideal for

- Micro Datacentre
- Servers, Storage, Networking
- IP Telephony Switches, Single/Multiple Workstation and Retail Kiosk / POS...

Smart UPS Ultra 5kW

-  50% lighter, 30% smaller
-  1.5x more power dense
-  3x battery life

Ideal for

- Medium Edge Datacentre
- High Density Blade Servers, HDD Storage Arrays, Mid-sized Machines within Light Industry...

Smart UPS Ultra 8-10kW

-  30% smaller and 50% lighter
-  1.5x more power in a 4U footprint
-  3x battery life

Ideal for

- Enterprise Edge Datacentre
- High-power Manufacturing Lines & Machines
- Multi-rack Server Room Environments.
