

Dual Monitor Arm

idea: Double your productivity in minutes.

K60900US

Overview

Boost your productivity while also reducing eye and neck strain. The Column Mount laptop-Monitor Dual Monitor Arm makes it easy to work on multiple documents or applications and to collaborate with colleagues. The built-in cable management system even helps reduce desktop clutter.

Description

One size doesn't fit all. When it comes to comfort, fit is everything. Complying with ergonomic standards doesn't have to be a pain. The Kensington SmartFit™ system eliminates the complication, confusion and high cost of giving your employees safe, comfortable, ergonomic workstations. Years of research from the US Army revealed a direct correlation between hand size and body measurements. The result is a simple colour-coding system that allows users to adjust for the perfect fit in seconds, every time, leaving you to deal with more important projects. SmartFit™ demystifies ergonomics for individuals making it easy to install and customise their workspace accessories to their ergonomic comfort requirements. Every SmartFit™ product includes a hand chart in the box. This indicates the specific SmartFit™ colour setting that will deliver optimum ergonomic comfort for the user. A small investment in workplace ergonomics can generate significant rewards in productivity by reducing fatigue, chronic injuries, absenteeism and even legal costs.
