## Expand Your new MacBook

Now you can connect your iPhone 6, iPhone 6 Plus, iPad, iPod, an external hard drive, a mouse, and other USB ready devices to your new MacBook. Connect, expand, and increase productivity.

## Quick and Easy

After a quick one-time software installation, you can connect to the internet or to a network instantly –just plug it in and go. Other USB 3.0 devices can also quickly connect with a USB cable and because it's backward compatible, USB 2.0 or 1.1 devices will also connect.

## Travel Companion

Compact and lightweight, the Kanex USB-C Portable Hub is a perfect travel companion for new MacBook users. Its features help you expand, connect and increase productivity while on the road. The 3-port hub gives users the ability to connect 3 more USB 3.0 devices such as hard drives, digital cameras, MP3 players and more. The Gigabit adapter gives you the port you need to connect to a wired internet connection or to a network.

## Connect to More

Our line of USB-C connectivity solutions is made with your needs in mind. As we welcome the new USB-C devices, we've identified a need to bridge the gap between the old, current and new technologies.
