

# ShuttlePRO v2

Extend Your Reach. Speed Up Workflow. **Make Life Easy.**

## The Perfect Companion

Contour ShuttlePRO v2 is the perfect companion for audio, photo and video applications on your Mac or in Windows.

Designed to minimise keyboard confusion and poor workflow, the sleek design of the ShuttlePRO v2 is pre-configured to work with many of today's multimedia applications. Working in partnership with your mouse or graphics tablet this is a perfect marriage of form and function.

Shuttle Pro's powerful software for Mac and Windows allows you to select configurations for popular apps such as Adobe Premiere Pro, Adobe Photoshop and Steinberg Cubase. You can even customise your own personal preferences for just about any application, making ShuttlePRO v2 also ideal for everyday use with programs such as Microsoft Office, Internet Explorer, Apple Safari, Google Picasa and many more!

## The Smart Tool

ShuttlePRO v2 is also smart enough to know when you are using multiple apps in your workflow and will automatically switch to the dominant application so you don't have to worry about anything more than completing your project.

### It's all about...

ShuttlePRO v2 is about comfort, speed and versatility.

In partnership with your mouse or graphics tablet it will extend your reach, speed up your workflow and make your life easier with every multimedia project.

## Standard button functions

All Contour Design Shuttle devices have a jog wheel and a Shuttle ring that are programmable. The ShuttlePRO v2 has 15 programmable buttons. The two top rows of buttons have removable caps so the included label can be inserted for quick reference as to switch functions each button is programmed to perform.

### Example:

## A quick click of a button allows you to make changes

With discrete design and professional build quality, ShuttlePRO v2 allows you to easily access 15 programmable buttons, or use the integrated jog and shuttle controls to scan through video and audio timelines, or preview photo catalogues such as those found in Adobe Lightroom.

A quick click of a button allows you to make changes, trim videos or apply photo effects without need to access your keyboard. Greater control is gained through ShuttlePRO v2's ability to also store macros making it a perfect companion for applications such as Adobe Photoshop where complex repeat processes may be required.

### Software Features

- Pre-configured for dozens of applications - Mac and Windows
- Monitors the application you are in and automatically switches settings
- Multiple settings per application
- Easily add/edit your own custom settings to make ShuttlePRO v2 work for you
