Quick Start Guide

Attach the Camera Strap

A strap is supplied with the camera. Additional straps are available separately. Attach the strap securely to the two camera eyelets.

Change the Battery

Set the battery-chamber cover and battery latch to the battery-chamber cover. Insert the battery into the battery chamber and close the battery-chamber cover.

Insert the Battery and a Memory Card

Set the battery-chamber cover and battery latch to the battery-chamber cover. Insert the battery into the battery chamber and close the battery-chamber cover.

Attach a Lens

A lens is attached with the camera. Additional lenses are available separately. Attach the lens securely to the lens mounting mark.

The Camera Body

The camera body has a dustproof and dripproof construction to ensure durability.

Viewfinder

The viewfinder shows the subject that will be recorded. The magnification can be adjusted.

Shutter

The shutter is a focal-plane, electronically controlled shutter.

Mirror

The mirror is a single-lens reflex mirror.

Eyelets

The eyelets are used to attach the camera strap.

Finder eyepiece

The finder eyepiece is used to frame and focus the subject.

Exposure meter

The exposure meter is used to determine the exposure.

Range (ISO 100, f/1.4)

The range (ISO 100, f/1.4) can be adjusted.

Dust-reduction System

The dust-reduction system is used to reduce the effects of dust on the image sensor.

Image Dust Off reference data (Capture NX-D software)

The image dust off reference data is used to reduce the effects of dust on the image sensor.

Camera Menus

The following menus are available for your Nikon camera:

1. Shooting Menu
2. Display Menu
3. Retouch Menu
4. Setup Menu

Recording Movies

To record movies, set the mode dial to the movie mode.

To view movies, press the movie-record button.

Press the movie-record button again to end recording.

Viewing Photographs

Press the multi-selector to view the photographs.

Deleting Unwanted Photographs

Press the delete button to delete the photographs.

Caring for the Camera

When the camera is not in use, store it in a cool, dry place. Store the camera in a case or pouch.

Troubleshooting

If the camera does not function correctly, check the following:

- Check if the battery is charged.
- Check if the memory card is inserted.
- Check if the mode dial is set to the correct mode.
- Check if the lens is attached securely.
- Check if the power is on.
