

# DIGITUS Professional Gigabit PoE++ Splitter, 802.3bt

DN-95206  
EAN 4016032441144

**Power Pins: 4/5(+),7/8(-) or 3/6(+),1/2(-), 10/100/1000Mbps, 12V/7A 85W**

The DIGITUS Gigabit PoE Splitter delivers data and power via a single network cable to devices that do not support Power over Ethernet. To deliver power and data, simply connect the input side of the splitter to a PoE switch or a PoE injector and the output side to a non-PoE compatible network device such as an access point, IP phone or IP camera. The splitter is powered by PoE (Power over Ethernet), therefore, you do not need an additional power supply unit and can use the device even where there are no power lines or power outlets. The output voltage is 12V and is provided via a terminal block. The splitter requires no configuration and thus guarantees a fast and seamless integration into your network.

**Provides power and data supply via the network cable even for non-PoE compatible devices**

- Meets the 802.3af/at/bt PoE standard
- 12V output voltage, 85W
- Input: Power + Data (RJ45)
- LAN (RJ45) output and power supply output via a terminal block
- Cable connection: 10/100/1000 Mbps
- Surge and short-circuit protection
- Power consumption: 3W max.
- Supports an input voltage range from 40VDC to 57VDC
- Operating temperature: -10°C - 55°C
- Dimensions (mm): 155.4(L) x 134(W) x 42.2(H)

#### Package contents

- Gigabit PoE Splitter
- Quick start guide
- TERMINAL BLOCK
