

ideapad S530

MORE THAN THE SUM OF ITS PARTS.

Speed, performance, and security. The Lenovo™ **IdeaPad™** S530 gives you all of this and more. Designed for both productivity and downtime, this sleek, light laptop boasts Harman® speakers, Dolby Audio™, and a 13" near-edgeless FHD glass display. It also has up to an 8-hour battery life that recharges quickly. You can configure it, too—with discrete graphics, secure fingerprint reader, and a backlit keyboard.

WHY YOU SHOULD BUY THE LENOVO IDEAPAD S530

Superb surround sound

The **IdeaPad S530** comes with premium Harman® speakers optimized with Dolby Audio™ as standard. Delivering a sound that's always crisp and clear, it means that you can enjoy your music, movies, and TV shows to the full wherever you go.

More screen, less bezel

The 13.3" FHD glass display shows everything in vibrant detail—and from different angles, too. Your viewing experience is enhanced by 72% color gamut, and very thin bezels on three sides of the screen (only 6.25 mm, on the left and right; and 8.52 mm, across the top), creating a near edgeless display.

Lenovo™

It's the little things that matter

From the seamless power of up to Intel® Core™ i7 processing to the soft-touch keyboard and touchpad, the **IdeaPad S530** is engineered to help you achieve more, more quickly. It's also surprisingly light and thin—just 1.25 kg, enabling you to work, rest, or play from anywhere.

Password? It's on the tip of your finger

With the optional fingerprint reader, you can log into your **IdeaPad S530** safely and quickly with your finger. As well as being faster than typing a password, you can rest easy as all your personal information is wrapped in three layers of encrypted security.

¹ All battery life claims are approximate and based on test results using the MobileMark® 2014 ver 1.5 battery life benchmark test. Actual results will vary, and depend on numerous factors including product configuration and usage, software, operating conditions, wireless functionality, power management settings, screen brightness and other factors. The maximum capacity of the battery will naturally decrease with time and usage. See <https://bapccom/products/mobilemark-2014/> for additional details.

² Power-off mode; requires 65W power source.

LENOVO SERVICES

Warranty Upgrades - On-site / In-Home Service

Maximizes PC uptime and productivity by providing convenient, fast repair services in your own home.

Accidental Damage Protection

Avoid the hassles of unexpected repair costs. Provides coverage for non-warranted damage incurred under normal operating conditions, such as minor spills, drops or damage to the integrated screen.

Warranty Extensions (1-to-3 Years Total Duration)

This fixed-term, fixed-cost service helps accurately budget for PC expenses, protect your valuable investment and potentially lower the cost of ownership over time.
