EMPOWERED BY NATURE

SIDEKICK

LOOK NO FURTHER

Need a weather alert radio that's rugged¹, rechargeable, and reliable, not to mention solar-powered, splashproof², smartphone & tablet charging, Bluetooth® streaming and with S.A.M.E. technology?

The **SIDEKICK** is just the ticket. With a rechargeable lithium battery, super-duper ambient light, solar panel charging and a hand crank power generator, it's an essential for every emergency kit—at home, at work, or in the great outdoors.

ON EXTRA ALERT

When the "Alert" function is on, the radio will automatically broadcast NOAA emergency weather alerts for your area such as hurricanes, tornadoes and severe storms. Plus the SIDEKICK also features S.A.M.E. technology (specific Area Message Encoding) for extra alert power. Just enter your S.A.M.E. county code and if there's a warning, watch or advisory you'll see it—with red, orange or green lights—and hear about it, too. You can set up to 25 locations so you'll be safe, wherever you are.

**4 MINS OF CRANKING
= 10-15 MINS***

of music, weather, and news

*depends on radio volume

TRIPLE-POWER

The SIDEKICK powers up in three fabulous ways—via solar panel, hand crank and built-in rechargeable lithium battery.

 NOAA Receives AM/FM & NOAA WB Band	 Receives Shortwave Outside of North America
 >50% Charge to Most Smartphones	 Bluetooth®
 Solar Charging	 Crank Charging
 USB Charging	 Siren
 LED Flashlight and Beacon	 Alarm Clock

All Purpose Camping Companion with Weather Alert Radio, Massive Ambient Light, S.A.M.E. & Bluetooth®

LISTEN UP

Stay in tune and up to date with this AM/FM digital radio with display and alarm clock. If you want more than just the radio, it's Bluetooth® ready and has AUX-in to play your own tunes or listen to your favorite podcast. And, when you want to listen alone, just plug in your favorite headphones.

ALL-POWERFUL

The built-in solar panel will charge the battery fully in 10-12 hours. Looking for alternative sources of energy? Crank the hand turbine for four minutes and you'll produce enough power for 10-15 minutes of music, news and weather or one minute of talk time. You can also use the micro-USB cable to charge the SIDEKICK's built-in rechargeable battery.

SAY HELLO

To charge your smartphone or tablet, simply plug it into the 5V / 2.1A output USB port. Power will automatically "dump charge" to your device, just like plugging into the wall. The SIDEKICK will provide >50% charge to most smartphones.

LIGHT THE NIGHT

Shine the bright LED flashlight to find your way. Use the glow-in-the-dark locator and illuminated buttons when you're in the dark. And for big-time emergencies, flash the red emergency beacon.

ADD SOME AMBIANCE

The built-in, rear mounted, dimmable ambient light on the back of the SIDEKICK provides just the right amount of light for the family to still enjoy a relaxing conversation or dinner even while the storm rages outside. Use it to light the tent on your next camping trip.

WEATHER OR NOT

The SIDEKICK has an IPX4 splashproof² rating so neither sleet nor snow nor rain will hamper its performance. Ideal for camping trips or river expeditions.

FEATURES

- AM/FM/NOAA weatherband
- S.A.M.E. and NOAA Weather Alerts
- 2600 mAh Rechargeable lithium battery
- Digital tuner and display
- Rechargeable lithium battery
- 5V---2.1A USB output
- Bluetooth® ready
- High efficiency solar panel charging
- Hand crank power
- Rugged¹ and IPX4 splashproof²
- Bright, long-lasting LED flashlight
- Red emergency beacon
- Ambient light with dimmer
- DC power input via included micro-USB cable
- Glow-in-the-dark locator
- Illuminated buttons
- AUX-IN jack
- Headphone jack
- Alarm clock
